<sup>1/</sup> The Department of the Treasury began a pilot program for the repurchase of marketable Treasury securities on March 27, 2006. In this program, Treasury invests cash not immediately needed for operations of the Government by purchasing Treasury securities under an agreement that the seller will repurchase the Treasury securities in 1 or more days. Between the start of the program and September 26, 2006, Treasury reduced the amount of Debt Subject to Limit by the par value of the Treasury securities purchased and held by Treasury under the repurchase agreements, less unamortized discount on bills. Treasury has decided to stop making this adjustment during the remainder of the pilot program while further consideration is given to the most appropriate way to reflect these transactions in the reporting of debt outstanding. The par value of the Treasury securities held by Treasury under repurchase agreements, less unamortized discount on bills, was \$3,929 million.
